

CAREBRIDGE

Caring for your parents, no matter the distance

By: Ilma Bano

A screenshot of the CareBridge website. The header features the CareBridge logo, navigation links for Features, How it works, Trust, and Login, and a prominent 'Get started' button. The main headline reads 'Care for your parents, from any distance.' Below this, a paragraph describes the app's functionality: tracking health metrics like blood pressure and blood sugar, managing medicines and appointments, and sending SOS alerts. Two buttons, 'Start free' and 'Try the demo', are provided. Demo login credentials are listed below. At the bottom, a partial image of an elderly woman is shown, with a floating notification bubble indicating 'Medicines taken 4 of 5'.

CareBridge Features How it works Trust Login **Get started**

Care for your parents, from any distance.

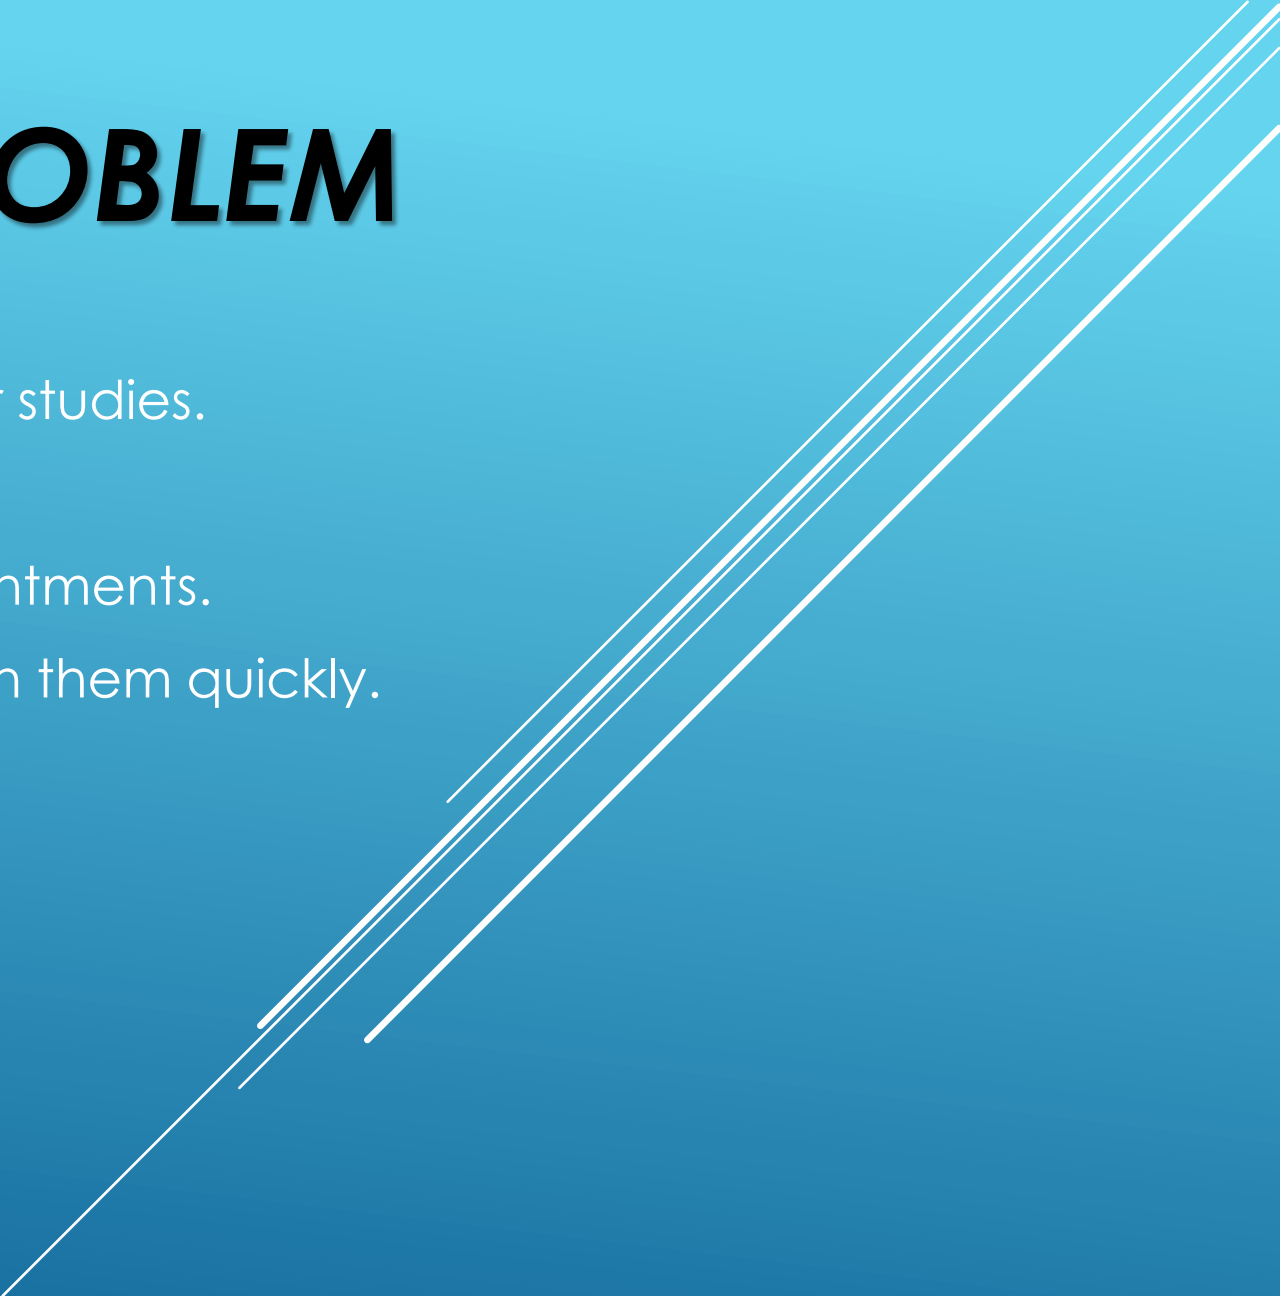

CareBridge keeps families connected to what matters most — your parents' health. Track blood pressure, blood sugar, medicines and appointments. One tap sends an SOS to everyone who loves them.

Medicines taken
4 of 5

THE PROBLEM

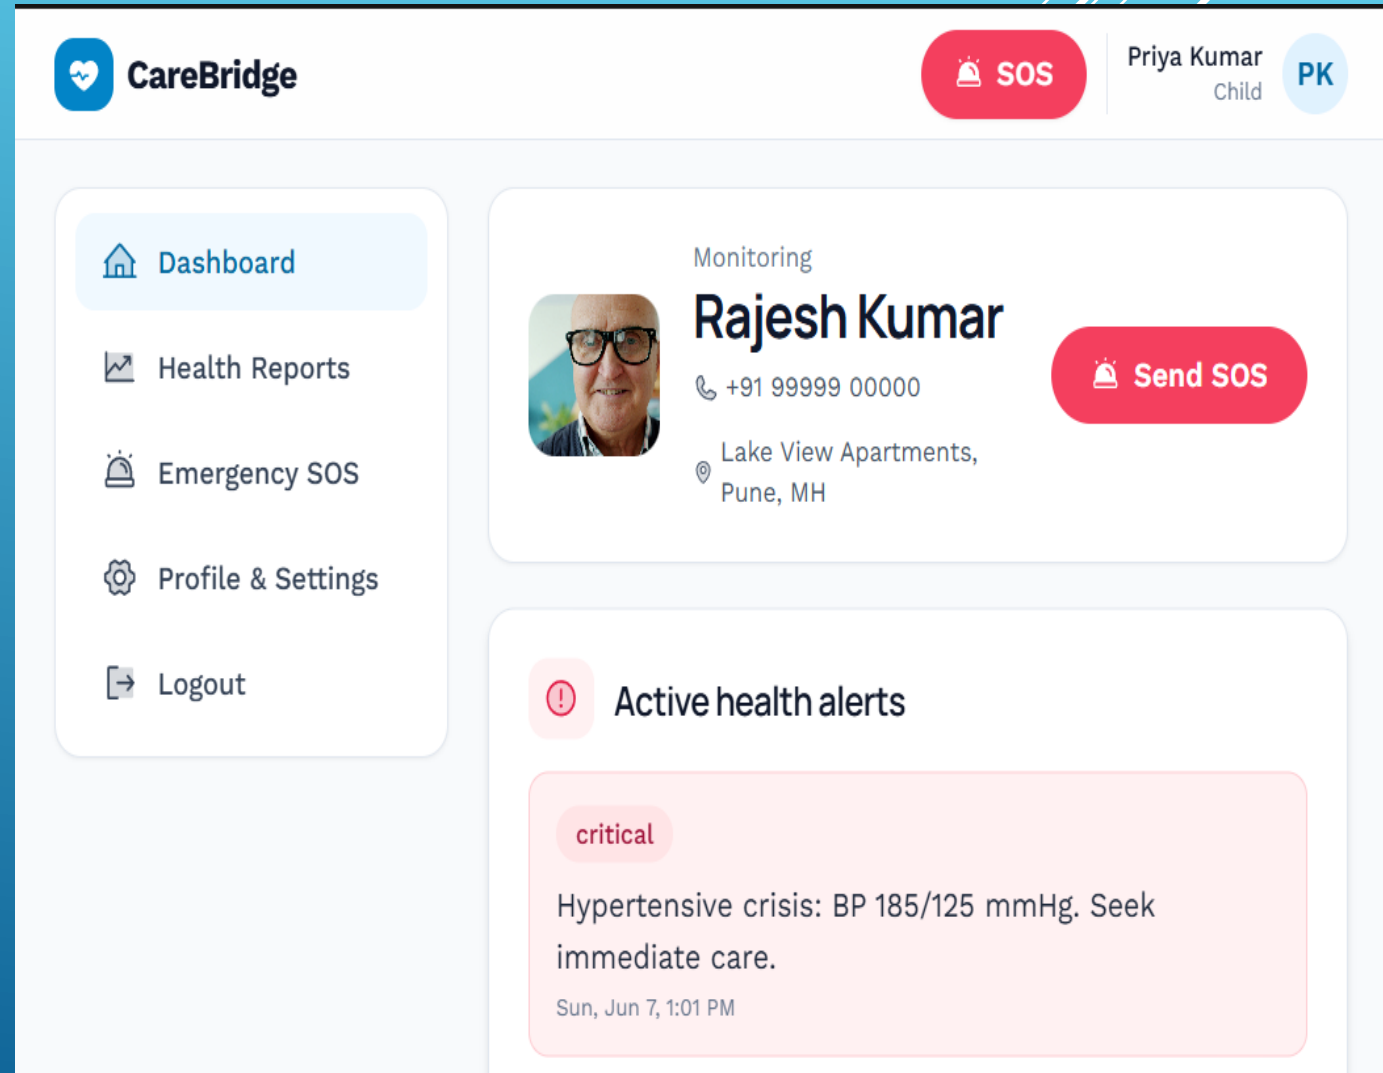

- Many people move to another city for work or studies.
 - Elderly parents often live alone at home.
 - They may forget medicines and doctor appointments.
 - In emergencies, family members cannot reach them quickly.
- 
- Several thin, white, parallel lines of varying lengths and orientations are scattered across the bottom right portion of the slide, creating a modern, abstract design element.

OUR SOLUTION

CareBridge is a smart app that helps families care for elderly parents from anywhere.

It provides

- Health Tracking
- Medicine Reminders
- Emergency SOS
- Real-Time Updates

KEY FEATURES

- Blood Pressure & Sugar Tracking
- Medicine Reminder
- Emergency SOS
- Health Reports

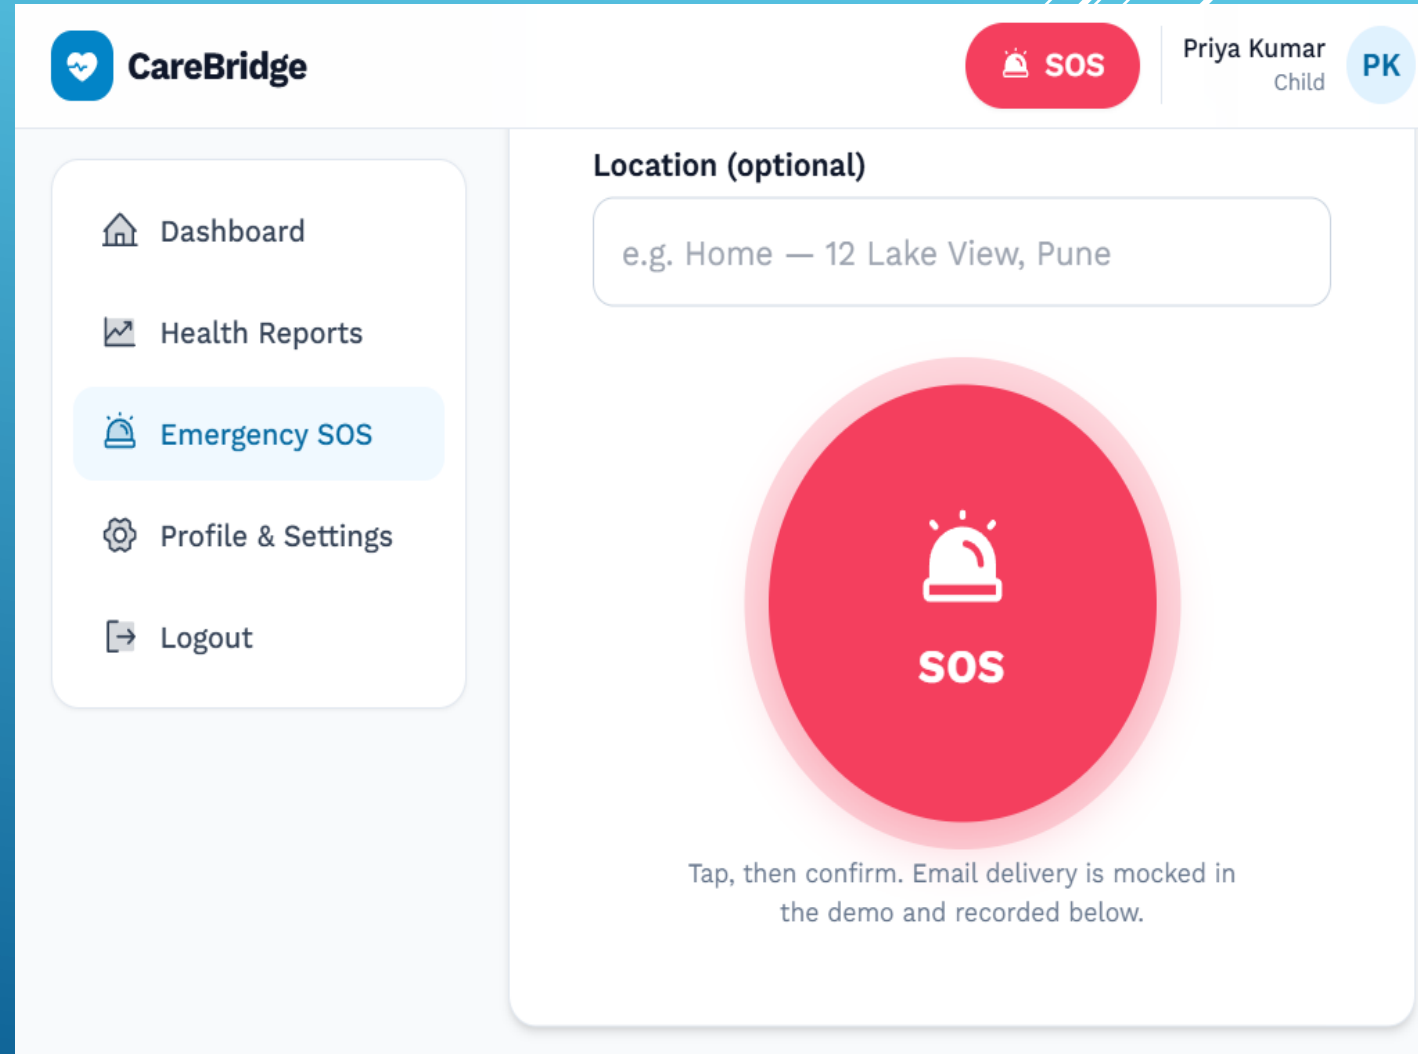

SIMPLE HEALTH MONITORING DASHBOARD

A senior-friendly dashboard that helps families monitor health updates, medicines, and alerts from anywhere.

INSTANT EMERGENCY ALERTS

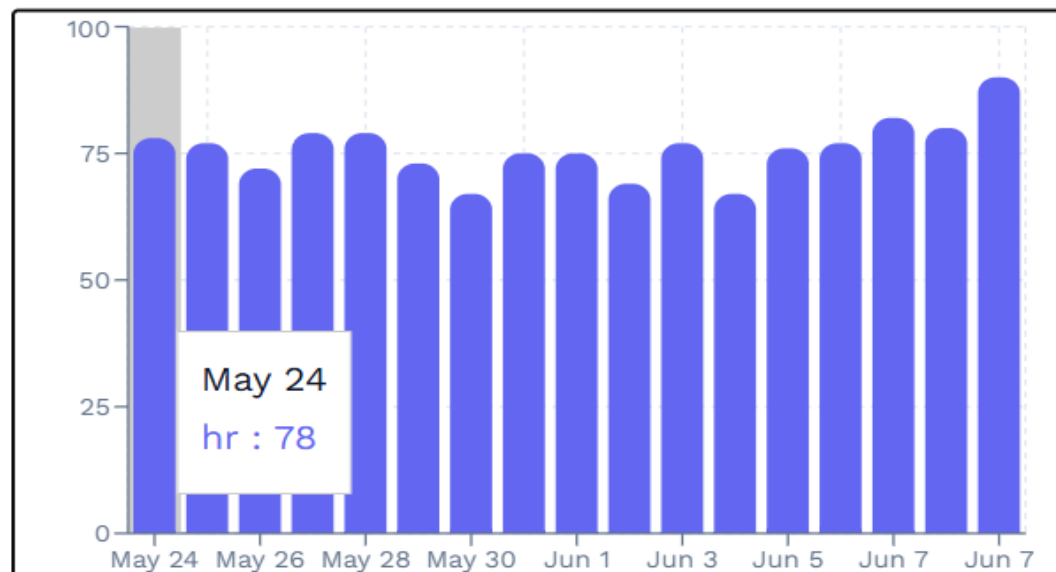

- One tap sends emergency alerts to family members instantly through notifications and messages.

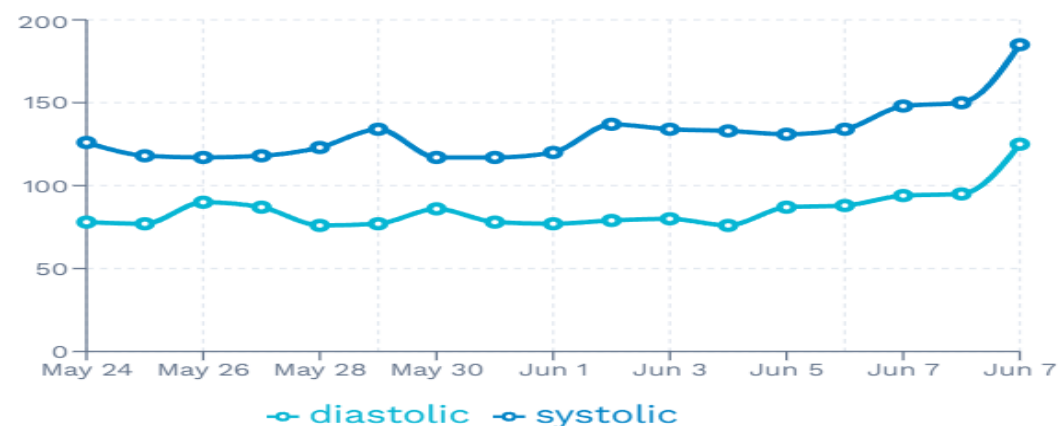

HEALTH TRENDS & REPORTS

- Visual reports help families and doctors understand health changes over time.
- **Doctor-Ready Data:** Helps medical professionals quickly analyze monthly trends during hospital visits to spot early risks.

Heart rate

Blood pressure trend

Blood sugar trend

TECHNOLOGY BEHIND CAREBRIDGE

Frontend:

- Flutter / React Native

Backend:

- Firebase

Database:

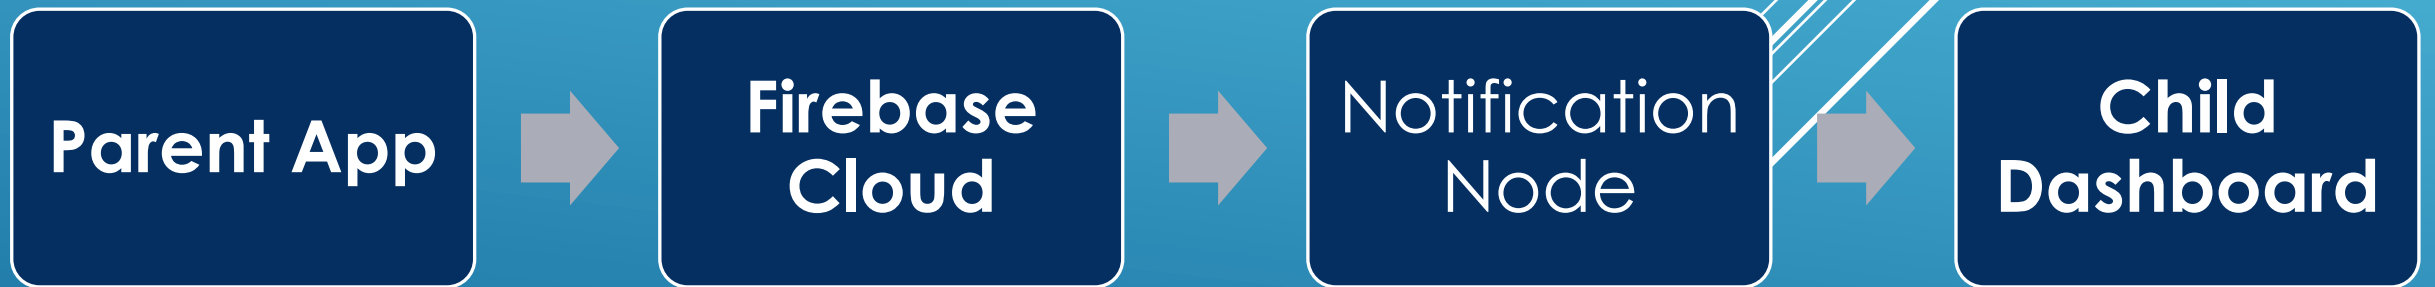

- Cloud Firestore / MongoDB

Notifications:

- Twilio / Firebase Cloud Messaging

HOW CAREBRIDGE WORKS

Secure real-time communication between parents and caregivers.

FUTURE IMPROVEMENTS

- **AI Health Prediction:** Using machine learning to forecast medical crises before they happen.
 - **Smart Wearable Integration:** Syncing real-time health data directly from smartbands and **Samsung Galaxy Watches**.
 - **Hospital & Ambulance Connection:** Direct API tie-ups with localized emergency networks for instant dispatch.
- 
- A series of white lines of varying lengths and thicknesses, arranged in a parallel, diagonal pattern, extending from the bottom right corner towards the center of the slide.

BUSINESS & REVENUE MODEL

- "A sustainable freemium model designed to keep core life-saving features free for everyone."

CONCLUSION
